

DANIEL YANKOVYCH

Senior Frontend Developer

Phone: (672) 968-1993

Email: d.yankovych@gmail.com

Residence: Vancouver, BC

PROFESSIONAL SUMMARY

Frontend Developer with 6+ years of experience building scalable, high-performance web applications. Skilled in React, Next.js and Tailwind CSS, with experience deploying via CI/CD pipelines and serverless platforms.

Delivered features for large-scale platforms (100+ sites, global live-streaming app) that improved performance and user engagement, while mentoring developers and collaborating cross-functionally to deliver secure, user-friendly solutions from concept to production.

RELEVANT EXPERIENCE SUMMARY

Programming Languages: JavaScript, TypeScript, Node.js;

IDE/Tools: WebStorm, Git, GitHub, Linear;

Frameworks & Tech: React, Next.js (ISR, SSR), Redux, Context API, Tailwind CSS, Storybook, Apollo GraphQL, RESTful APIs, WebSockets, OAuth2.0, Cloudflare Tools (Workers, D1, KV), AWS, CI/CD workflows, Docker, Kubernetes, PostHog, dnd-kit, OOP, Multithreading, JSON, Headless CMS, AI/LLM integration (OpenAI API);

Testing: Jest (unit & integration);

PROFESSIONAL EXPERIENCE

Senior Frontend Developer/Team Lead

2023 – Present: CSME Technology Inc. (Remote)

- Delivered modern authentication flows with Google Identity Services and One Tap, reducing login friction and improving user conversion rates.
- Implemented scalable site-wide navigation and search features, enhancing content discoverability and user engagement across the platform.
- Built and maintained a modular UI library (Storybook) to standardize components, improve developer velocity and support rapid A/B testing.
- Mentored and managed junior marketing developers in a remote-first environment, improving delivery speed and collaboration with product/marketing teams.
- Deployed applications through CI/CD pipelines and Cloudflare serverless platforms, improving site reliability and global performance.

Frontend Developer

2020 – 2023: CSME Technology Inc. (Tel Aviv, Israel)

- Delivered 100+ high-performance sites with Next.js and Tailwind CSS, enabling rapid campaign launches and consistent branding across regions.
- Implemented authentication and onboarding for whitelabel platforms, improving partner integration and user activation.
- Developed a headless CMS (Sanity.io) backend to streamline content operations, reducing update time and improving marketing agility.
- Integrated advanced analytics and attribution (Everflow, GA), providing marketing teams with better tracking, insights and ROI measurement.

Junior Frontend Developer

2019 – 2020: Inetex Ltd. (Rehovot, Israel)

- Modernized a large set of static and WordPress pages by migrating to Next.js with Vercel, improving maintainability and performance. Standardized responsive styling with Bootstrap.

EDUCATION

2010 – 2016: M.Sc. & B.Sc. in Computer Science, I. Sikorsky Kyiv Polytechnic Institute (Kyiv, Ukraine)

LANGUAGES

English (Fluent), Ukrainian (Native)
